Contactless Debit Cards

Attention members with a checking account and debit card: Contactless debit cards coming soon!

Contactless cards offer a faster, more convenient, and potentially more hygienic payment experience, all while maintaining the security of traditional chip cards. They allow for quick tap-to-pay transactions, eliminating the need to insert or swipe cards, and can minimize contact with payment terminals.

Convenience and Speed

- **Quick Transactions:** Simply tap your card on the reader, making payments faster than traditional methods.
- **No PIN Required (for smaller transactions):** Many contactless cards offer PIN-free transactions for purchases under a certain amount, further simplifying the process.
- **No Signature Required:** No need to sign receipts for small purchases.

Hygienic and Touch-Free

- **Reduced Physical Contact:** Tapping reduces the need to touch surfaces at checkout, promoting hygiene.
- **Ideal for Public Spaces:** Perfect for places like fast-food restaurants, grocery stores, and coffee shops where surfaces may be frequently touched.

If you don't have your checking account with us, now is a good time to make the switch. These improved features with our debit cards along with a very user-friendly online banking experience, mobile banking and a very robust bill payment system make it worth the look!
